Martingale progressions

1:1 Color, Low, High, Even, Odd							
Spins	1	2	3	4	5	6	7
Bets	1	2	4	8	16	32	64

2:1 Dozen, Column							
Spins	1-2	3	4	5	6	7	8
Bets	1	2	3	5	7	11	16

5:1 Line							
Spins	1-5	6-8	9-11	12-13	14	15	16
Bets	1	2	4	6	8	10	12

8:1 Corner							
Spins	1-8	9-12	13-15	16-18	19-20	21-22	23-24
Bets	1	2	3	5	6	8	10

17:1 Split							
Spins	1-17	18-26	27-35	36-41	42-45	46-49	50-52
Bets	1	2	4	6	8	10	12

35:1 Straight							
Spins	1-35	36-53	54-71	72-83	84-92	93-99	100-105
Bets	1	2	4	6	8	10	12

Example:

Start your bet with one chip.
From roulette spins 2 to 5 bet 1 chip.
From spins 6 to 8 bet 2 chips.
From spins 9 to 11 bet 4 chips.
From spins 12 to 13 bet 6 chips.
In roulette spin 14 bet 8 chips.
In roulette spin 15 bet 10 chips.
In roulette spin 16 bet 12 chips.
STOP ONCE YOU HAVE WON AND START AGAIN.

Remember:

A timely retreat is a victory. - Mikki Mase

Each person has different criterion and bet decisions should be taken based on available time, available money and the risk of the bet.

Example:

- Your bet should be:**
- 14 chips on high numbers (19-36)
 - 5 chips on any line from low numbers. For example line 1-6, 4-9, 7-12, 10-15, or 13-18.
 - 1 chip on zero.
European table winning probability: 67.5%
American table winning probability: 65.7%

Example:

- Sequence 1,2,3,4 → bet 1+4=5
- If you win, erase 1 and 4 → new sequence 2,3 → bet 5
- If you lose, add 5 at the end → new sequence 1,2,3,4,5 → bet 6
- It is finished when all numbers are erased.
- Apply this bet to colors, high, low, even and odd.

Example:

- Initial bet = 5, Expected profits = 25
- If you win → bet 5
- If you lose, add 1 to the initial bet→ bet 6
- It is finished when expected profits are reached.
- Apply this bet to colors, high, low, even and odd.

007 BET ONE	
Type	Chips
19-36	14
Any line from 1-18	5
0	1

007 BET TWO	
Type	Chips
1-18	14
Any line from 19-36	5
0	1

LABOUCHERE BET		
Set sequence	As long as you want with any numbers	— 1,1,1,1,1 —
Bet	Sum of the first and the last	1+1=2
If you win If	Erase the first and the last	1,1,1
you lose	Add the bet at the end	1,1,1,1,1,2

D'ALEMBERT BET	
Set initial bet	5
Set expected profits	25
If you win	Repeat the initial bet, 5
If you lose	Add 1 chip to the initial bet, 5+1=6
